PERSONAL STATEMENT

I am an outgoing and fun person; I am a huge sports fan and can enjoy watching anything whether it is football, soccer, tennis, swimming, volleyball or baseball... The English Soccer team I support is Tottenham Hotspur who I follow avidly.

I have been working for challenger for 3 years and have enjoyed the opportunity I have been given not only to develop my coaching but also to travel around the United States; I'm continually ticking more and more states off my list...

Along with soccer my other major passion is to surf, I have travelled all around Europe in search of different waves, beaches and cultures...

My long term goal is to become a teacher; This has been my ambition for many years and would love to find a position over here in America someday.

My hometown in South Wales is a coastal tourist town which attracts many visitors during the summer due to its sandy beaches and local attractions. It's a great place to live but I can see myself spending the next few years exploring the United States as it has so much variety.
